

# **Gobles Public Schools High School/Middle School Charging Guidelines**

Students at Gobles High School/Middle have the following charging policy on their lunch account: Students are allowed to charge up to a -\$5 balance on their lunch account. A student is not allowed to charge a la carte items if they do not have the appropriate amount of funds on their account. They can only charge for a reimbursable meal. Students will be notified every time they go to checkout at breakfast or lunch that they have a negative balance and need to bring money to school for their lunch account. Once a student has reached their -\$5 limit they must pay cash for the meal they purchase.

Any student with an inactive account with a negative balance will have that account put under the schools bad debt policy.

This institution is an equal opportunity provider.
