Dear Gobles Parents and Guardians,

We have now been in school and online for four weeks; it has been a crazy time with many changes in direction and processes. One big change has been to provide every student, K-12 and virtual academy, with Chromebooks. With all the unknowns, possible shutdowns and state mandated policies, we decided to get Chromebooks to every student as quickly and safely as possible. We have accomplished this! Now we must catch up on user agreements and user fees (\$25 per each Chromebook). Please visit the Gobles Website at <http://www.gobles.org>, scroll down to the Acceptable User Agreement and fill out the user agreement.

The user fee helps maintain and purchase new/replacement devices. This year we were able to supply all of our students with a Chromebook using collected user fees from previous years (first time). We understand that not all families will have the funding for the \$25 fee per device due to the Covid 19 Pandemic. If you have the means to provide/support those families in our community please do so by contacting the elementary or MS/HS office. User fees will be paid at either the MS/HS office or the elementary offices.

We appreciate your patience in regards to this situation. In addition, thank you for trusting Gobles Public Schools to be your child's educator.

Sincerely,

William J. Lisowski, M.Ed.
K-12 Dean of Students
